

Easy Web-Based Sending,

Powerful SMS Engagement

Log in and quickly send and receive SMS, straight from your browser

Unlock the 97% open rate of SMS communications for your business. Simply upload and select your contacts or lists (up to 10,000 recipients), use a template or type your message, then schedule or send immediately. Manage replies from your Inbox, holding engaging 2-way conversations, or even initiate a video-call.

Features

- ✦ Global SMS routes to any handset on the planet
- ✦ Templates for fast repeat communications
- ✦ Forward SMS replies to an email inbox of your choice
- ✦ Additions to SMS:
 - + Save on characters with auto link-shortening
 - + Brand the short-links with your own URL; boost trust
 - + Hosted video calls; recipients join with 1 tap, no app

Benefits of Modica's Web2SMS

Scalable SMS

From conversational messaging in Web2SMS to high-throughput SMS in the millions, Modica scales with you.

Easy Auth & Security

Secure log-in options are available for your business; from OAuth, 2FA, SSO, SCIM, or Okta integration.

Continuous Visibility

Delivery receipts, message response tracking, and real-time and historical reporting.

→ Web2SMS is part of our **cloud-based platform** which includes Campaign Manager, Email2SMS, 2FA - and a Marketplace of SMS, MMS, WhatsApp, and Video APIs and third-party Integrations
